

## **Guidelines for Final Submission of Honours Thesis**

On the completion of the examination of the thesis, and once any recommended corrections or amendments have been satisfactorily undertaken, each copy of the thesis submitted should be bound in boards, covered with black buckram and embossed on the spine as follows:

**(i)** at the bottom and across – the letters UTS;

**(ii)** 90 mm from the bottom and across; the degree and year of submission, for example:

BM(Hons)	or	BHMS
2008		2008

Students should check the abbreviation of the degree for which they are submitting a thesis by contacting their Supervisor. Re-binding will be required in the event of an error in the abbreviation.

**(iii)** evenly spaced between the statement in (ii), and the top of the spine; the initials and surname of the author. No other lettering or decoration shall appear on the spine;

**(iv)** where the spine of the thesis is too thin to support lettering across, the wording shall be written along the spine, reading from the top to bottom in all cases;

**(v)** the cover of the thesis shall be black for Honours degrees and lettering shall be gold.
