

## The New Standards for the Management of Risk

### INTRODUCTION TO THE NEW RISK MANAGEMENT STANDARDS

- AS/NZS ISO 31000:2009 AND
- ISO/IEC 31010:2009.

#### Presented in conjunction with Standards Australia

This program has been designed to assist participants in understanding and applying AS/NZS ISO 31000:2009, *Risk management—Principles and guidelines*, the new International Standard on the management of risk including its companion document ISO/IEC 31010:2009 Risk Assessment Techniques.

#### Who Will Benefit?

This course is relevant to the following groups in all industries:

- Directors, executive managers and line managers across all organisations, public and private, large and small. It is a must for any Director or manager who wants to manage risk as part of effective corporate governance
- Auditors, accountants, compliance practitioners and legal advisers who provide advice on the management of risk either in house or as consultants.

#### About the Presenter - Kevin W Knight AM

Qualifications: Convenor, ISO Working Group on Risk Management

Kevin is well known through his very active work in the development of Risk Management Standards. He is a founding member of the Standards Australia/Standards New Zealand Joint Technical Committee that produced the original AS/NZS 4360 Risk Management Standard in 1995 and its subsequent revisions in 1999 and 2004.

Kevin was Convenor of the International Organization for Standardization (ISO) Working Group that produced ISO/IEC Guide 73:2002. He also convened the ISO Working Group that developed the new ISO 31000 Risk Management Standard and the revision of ISO/IEC Guide 73.
